

## **New Vacancy**

**Due to increased demand for Electrotechnical AM2 assessments, we're pleased to announce a new opportunity within our Commercial Department for an AM2 Assessor**

### **AM2 Assessor**

*As a member of the AM2 Assessment Team, you will be responsible for the delivery of high-quality assessments in accordance with NET compliance and assisting in the day-to-day operation of SETA's AM2 End Point Assessment Centre.*

The Post Holder will ensure the centre operates efficiently, remains fully compliant with the National Electrotechnical Training (NET) Standards, and delivers high quality, professional service. The role includes assessing candidates, managing resources, supporting quality assurance process, and contributing to SETA's wider operational objectives.

As an AM2 assessor, you will be required to hold the following relevant qualifications; NVQ Level 3 Installing and Commissioning Electrical Systems & Equipment or equivalent (e.g. City & Guilds 2360 Part 2), JIB ECS Gold Card, C&G 2391 Initial and Periodic Inspection and Testing or equivalent, BS7671 18<sup>th</sup> Edition Requirements for Electrical Installation, CAVA, A1 or D32/33 or equivalent assessor's qualifications.

With all roles, communication with employers, apprentices and industry stakeholders is crucial and will be an expectation of the candidate/role. Ultimately, you will strive to ensure SETA continues to build on our 56-year history and continues to provide high quality, value for money assessments that dovetails seamlessly with employer requirements.

We are looking to interview as soon as possible, so please don't hesitate to contact us if you are interested at [HR@seta-training.co.uk](mailto:HR@seta-training.co.uk)
