

## ELECTRICAL/ELECTRONICS INSTRUCTOR VACANCY

<b>Job Title</b>	<b>Electrical/Electronics Instructor</b>
<b>Job Description</b>	<p>We are looking for a multi-skilled Electrical Engineer with a high level of industry experience who would like to move into training and pass on their knowledge and experience. Knowledge of Electronics/PLC would be advantageous.</p> <p>The successful candidate will work with our existing instructor team delivering high quality training to apprentices and commercial customers as required.</p>

### Responsibilities: -

- Provide clear, accurate and transparent advice and guidance to candidates and employers
- Assess skills and make judgements about competence
- Produce lesson plans and schemes of work
- Deliver high quality training in a way that supports effective learning and high levels of retention and achievement
- Ensure Health & Safety standards are met at all times
- Use diverse methods of teaching as required, enabling candidates to achieve within their planned timeframe
- Meet regularly with your Line Manager to review candidate progress
- Attend regular team meetings as required
- Complete all documentation as required for quality and funding purposes
- Keep abreast of Quality Assurance developments in apprenticeship delivery and own area of expertise
- Undertake and keep records of regular CPD activities to retain current competency and update knowledge and skills
- Carry out any other activities as may be reasonably required by your Line Manager

### Requirements: -

- Good craft/technical skills
- Good interpersonal skills
- Basic IT skills
- Relevant industry experience; Electronics and PLC knowledge desirable
- Relevant qualifications; HNC or above would be advantageous
- Assessor and teaching qualifications are desirable but not essential as full support will be given to develop the necessary skills
- Full driving licence and willingness to work off site if required
